

Please give me the opportunity to select the radio stations that I would like to listen too, instead of taking away yet another valuable service. I am looking forward to having access to the Traffic channels being offered by XM radio. If the regular 'air' stations were worth anything and could meet my needs all the time I would use them. XM provides, me, the consumer, with more variety that interests me, if it weren't for them I would be listening to books on CD anyway, so either way the local market loses out.
